## Understanding Our Business Concept

---

BELCO supplies CCTV and Surveillance system equipment in Malaysia. We offer a wide range of security products, such as closed circuit television, burglar alarm, door/card access, time attendance, audio visual and keyphone / PABX systems at low prices to enable as many people as possible to afford them.

Here at BELCO, we have successfully maintained low prices for our items every year so that it will always benefit our customers. This has been made possible because we fully implement the BELCO business concept and the BELCO organization to purchase in large quantities, using the best supply chain methods to keep prices to the minimum.
